● WORK EXPERIENCE

APPLICATION DEVELOPER – AUREX SOFTWARE HOUSE – 01/04/2026 – 30/06/2026 – ISLAMABAD, PAKISTAN

Worked as a Mobile Application Developer Intern focusing on cross-platform app development using React Native and Expo. Responsible for building responsive UI screens, integrating backend RESTful APIs, managing state, and performing debugging to ensure optimal application performance and smooth user experience.

SOFTWARE OPERATOR – ABU BAKAR TRADERS – 04/02/2023 – Current – MANDI BAHAUDDIN, PAKISTAN

Managed database operations, record-keeping, and office software tools for daily workflows and distribution reporting. Streamlined data entry processes and resolved software troubleshooting issues to ensure operational efficiency.

● SKILLS

the use of computers | Microsoft Word | Microsoft Office | Programing | Web App Developer | Mobile App Developer

● PROJECTS

05/02/2026 – 13/02/2026

Teacher Feedback System

A modern, full-stack mobile application that allows students to provide anonymous feedback and ratings for their teachers. This project utilizes the MERN stack (specifically for the backend) and React Native (Expo) for the cross-platform mobile experience.

Final Year Project :- Nazdeek Service Based Marketplace is a comprehensive mobile solution designed to bridge the gap between service providers and end users. Whether you need a plumber, an electrician or professional technician, Nazdeek makes it possible through a seamless marketplace.

- **Service Booking:** Users can browse and book professional services instantly.
- **In-App Chat:** Real-time communication between users and providers for better coordination.
- **Reviews & Ratings:** A transparent feedback system to maintain service quality.
- **Report System:** Safety first—users can report service providers for policy violations.
